

## **DETAILED ACTION**

### ***Response to Arguments***

1. Applicant's arguments with respect to claims 1-6, 8-14, 17-26, 28-34, 37-46, 49-51 have been considered but are moot in view of the new ground(s) of rejection.

### ***Claim Objections***

2. Claims 1, 18, 21 are objected to because of the following informalities: Claims 1, 18 and 21 include limitation "the plurality of video frames". The examiner suggests "the plurality of video frames" should be replaced by "the first plurality of video frames". Appropriate correction is required.
3. Claim 38 is objected to because of the following informalities: Claim 38 includes "a plurality of video frames" on lines 9 and 19. The examiner suggests "a/the plurality of video frames" should be replaced by "a/the first plurality of video frames." Appropriate correction is required.

### ***Claim Rejections - 35 USC § 112***

4. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

5. Claims 1-6, 8-14, 17-26, 28-34, 37-46, 49-51 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the enablement requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to

Art Unit: 2427

enable one skilled in the art to which it pertains, or with which it is most nearly connected, to make and/or use the invention. Independent claims 1, 18, 21, 38 and 41 include limitation the plurality of video frames are not identified prior to receiving the video. However, the limitation obtaining the plurality of video frames by requesting the specific video frames from the server by sending from the client system separate play request for the video frames (lines 9-10 of claim 1), identifies the plurality of video frames to be sent to the client system. Wherein, the server identifies the plurality of video frames being sent to client system as the request is received and the plurality of frames are identified prior to receiving the video.

### ***Conclusion***

**6. THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
